

## FUMIGATOR AEROSOL DISINFECTOR

Aerosol Disinfector converts formalin into aerosol from which 100% biological with an adequate amount of penetrability to destroy spores.

Aerosol formalin & water combine to work with a vengeance, permeating every crack and crevice, destroying germs and spores on furniture, light fitting and equipment.

Multipurpose disinfectants instantly destroys even air borne bacteria, leaving a negligible residue owing to its high aerodynamic stability which cause it to remain suspended in the air without forming droplets.

### **Features:-**

- Light Weight and Portable.
- Easy to Operate.
- Virtually no maintenance Required.
- Comes with Automatic Timer (Optional).
- Negligible Power Consumption.
- 100% Convenient, Portable & Easy to Use.

***\*ALWAYS READ AND FOLLOW THE INSTRUCTIONS ON LABEL OF CHEMICAL YOU ARE USING\****

## SPECIFICATIONS

**Body** : 202 SS Base Cabinet with Aluminum Legs (Plastic Legs Optional)

**Liquid Capacity** : 5 Litre of Chemical Storage (Other Models Available With 3L Storage)

**Motor** : 1/8 Hp Copper Winding, Aluminium Body Motor (ISI Motor Optional)

**Blade** : Plastic Fan Blade For Long Lasting Use

**Atomizing Capacity** : 30-35ml Per Minute

**Fume** : High Pressure Fume Releaser

**Automatic Timer** : Optional ( 0-60 min )

**Power Supply** : 230 V 50Hz Power Supply
