

RCB-13

Provided for precise and constant temperature and auxiliary heating in colleges, industrial and mining enterprises and scientific research departments.

Salient Features:

- LCD Microprocessor temperature controller
- Timing function Range 99.59 hrs
- Rounded corner SS 304 chamber
- Audible and visible alarm for temperature and water level
- With interface to connect externally
- Drain valve for faster discharge & easy cleaning

Technical Data	
Model	RCB-13
Temperature Range	-20~100°C
Precision	±0.2
Chamber Volume	13L
Pump (flow rate)	8 Litre/min
Chamber Dimension (mm)	240x170x200
External Dimensions (mm)	750x750x1220

Supply: 220-240 Volts, 50Hz Single Phase.
